

The Petaluma Fair.

Without expressing a hope that all horsemen will be at Petaluma this year would be uncharitable as well as unfair. This Queen city of Sonoma County—the best inland city in this State—is to hold a race meeting this year that will be a financial success not only for the association but for the horsemen who go there. Great preparations are being made, as can be seen by the advertisement of the meeting. A splendidly arranged list of events is offered which should not be overlooked, entries for which will close next Saturday, June 15th, so there is very little time to lose.

The excellence of the race track at Petaluma, large number of spacious box stalls, its salubrious climate and the hospitality and enthusiasm of the people in and around this thriving city is too well known to bear repetition here, suffice it to say everything will be done to make this meeting a grand success and every horse owner should send in his entry on time.

The Vallejo Fair.

Ha! Ha!! The programme of the Vallejo race meeting appears in its proper place this week in this issue, and we want to have every horseman see it. We could not satisfy our anxious readers last week, but now we have no apologies to offer. The races at Vallejo will be creditable in every way to the enterprising directors, and a perusal of the list of events will show that they want to give as many purses, and as many races as possible for them. Entries for these races will close next Saturday, June 15th, and as Vallejo is in the grand circuit no horseman can afford to overlook it. The track is an excellent one, and there are plenty of good stalls and accommodations for horses. The city of Vallejo contains more wage-earners to-day than it has for years, and everything portends a most prosperous meeting. Read the programme and send to us for entry blanks at once.

Additional Purses, P. C. T. H. B. A.

There is nothing of the white feather characteristics about the President and directors of the P. C. T. H. B. Association. In this issue will be found additional purses and some that are reopened for the summer and fall meetings which ought to meet with a liberal response from all horse owners on this coast who have trotters or pacers that are eligible.

The summer meeting at Sacramento is being talked of throughout that valley, and from present indications it will be the most successful one ever held by this association. The fall meeting at the City of Angels is to be the banner one of the year. Those who neglected to make entries before should not let this opportunity pass. Read the advertisement carefully, and send in your entries on or before the date set for their closing, July 1st.
